21:41 (IST) Mumbai Police Hari Om Patnaik is a former IPS officer who retired from service in 2013 and he was made DCP (Crime) in 2019. He is known for his social work and clean politics in Mumbai. There is a scene in the video game where your character climbs down a ladder to a jungle temple, while on the bottom of the ladder lies a rose, a symbol of freedom from slavery. The reason for this being is to symbolize the redemption your character has achieved as they climb up the ladder and escape from the game. The moment is a good choice of symbolism to bring up, as it fits the theme of the FNAF series. To escape, we had to climb up a ladder, but it didn't end there. The first game contained the infamous 'Red Room' where you are forced into being taunted and harassed. No matter how far you go, you can't escape. It was not until we went in search of answers, and found a way to escape that we were able to truly be free. If you read the book, when Sally comes to the realization that she is being forced to do what she's doing, her life seems to have no meaning. She is ashamed to admit it, and doesn't know what to do with her life. We saw a similar sentiment in the video game, when the player enters the room and has to be taunted for the first time. They didn't know what to do, they were disgusted by the experience, and didn't know why they were there. But in both the book and the video game, we see the realization that there is a purpose for this experience. If Sally is experiencing this ordeal as an adult, we see that she is finding out what that purpose is. The only difference is that the adult version of her came to this realization when she was able to escape. The answer to the moral question for the 'Red Room' is no different than the answer for Sally. It is, in fact, the same: 'Why are you here?' The answer that was given to the big bad wolf (Fredbear) was 'because you are curious'. The answer to Sally is also 'because you are curious.' What is the real meaning behind the 'Red Room'? Why does it torment 82157476af
